"Lost In Time"

Visit "[Lost In Time](#)" on MotoLyrics.com

I had it all right in my hands
I lost it all watching time pass
I wished it all to come back for you
always to find love was over due
if I could rewind back to you
i'd show you all the things we could do
I put more sand in the hour glass
and make it ride on a second chance

chorus

time took me back too far
too far to get where you are
i've been running for a million paces
i've been running loving familiar faces
i've been passing familiar places
that lead me back to you
so far lost in time
where am i gona run babe?
lost in time
where am i gona run babe?

I took a long hour on your heart
I bought a one way trip in time.
They took me back to very start
promising I could change your mind

chorus

time took me back too far
too far to get where you are
i've been running for a million paces
i've been running loving familiar faces
i've been passing familiar places
that lead me back to you
so far lost in time
where am i gona run babe?
lost in time
where am i gona run babe?

Chorus

Running for a million paces
loving familiar faces
passing familiar places
that lead me back to you
so far
lost in time
where am i gona run babe?
lost in time
where am i gona run babe?

Where am i gona run babe?
Where am i gona run babe?

Running for a million paces
loving familiar faces
passing familiar places
that lead me back to you.
