She love the lights, she love the show  
I think she is a dancer  
I live the life, she wants to know  
She wants to be a bad girl

Uh the way you movin  
I just wanna get to it baby  
We're talkin to do it  
We're talkin to do it

Got me acting foolish  
Don't stop or you'll ruin it  
We're talkin to do it  
We're talkin to do it

We can take all time if it's what you like  
But I see it in your eyes, girl your body don't lie  
You you, you and I  
Girl, your body don't lie  
You you, you and I  
Girl, your body don't lie

This could be  
The best night of your life

The best night  
The best night of your life  
The best night  
The best night of your life

She loves the stage, she likes the money  
She's a fast girl  
She wants the house in the hills with the swimming pool  
Girl, I bet you do, do

Uh the way you movin  
I just wanna get to it baby

We're talkin to do it  
We're talkin to do it

Got me acting foolish  
Don't stop or you'll ruin it  
We're talkin to do it  
We're talkin to do it

We can take all time if it's what you like  
But I see it in your eyes, girl your body don't lie  
You you, you and I  
Girl, your body don't lie  
You you, you and I  
Girl, your body don't lie

This could beâ€¦  
The best night of your life

The best night  
The best night of your life  
The best night  
The best night of your life

The best night  
The best night of your life  
The best night  
The best night

We can take all time if it's what you like  
But I see it in your eyes, girl your body don't lie  
You you, you and I  
Girl, your body don't lie  
You you, you and I  
Girl, your body don't lie

This could beâ€¦  
This could beâ€¦  
The best night of your life  
This could beâ€¦  
The best night of your life
