[Verse 1] (Chrishan)

Lightning, dark skies open your eyes.  
Run to me like you never did before.  
rain drops falling, hear you calling.  
Run to you like I never did before.  
'Cause I don't care if there's nobody out there,  
don't care if it's cloudy out there.  
Promise to find you baby, and when I find you...

[Chorus:]

Hold on to me, I'll never leave.  
'Cause we can't keep on running on empty, keep on  
running.  
Hold on to me, if you believe.  
We can conquer this whole world together,  
conquer this whole world together baby.

(Ohh) ohh  
(Ohh) ohh  
Yeah yeah yeah  
(Ohh)

[Verse 2] (girl)

Time goes slowly, feel so lonely.  
Gotta see your face like I never have before.  
No sleep at night, with out you by my side.  
Gotta feel your touch like I never have before.  
'Cause I don't care if it's cloudy out there,  
don't care if it's lonely out there.  
Long as I find you baby, and when I find you...

[Chorus:]

Hold on to me, I'll never leave.  
'cause we can't keep on running on empty, keep on  
running.  
Hold on to me, if you believe

'Cause we can conquer this whole world together,  
conquer this whole world together baby.

(Ohh) ohh  
(Ohh) ohh

Yeah yeah yeah  
(Ohh)

[Verse 3] (both)  
Can you run baby like you never run before,  
run baby like you never run before,  
run baby like you never run before... ore... ore... ore...  
hey!  
Can you run baby like you never run before,  
run baby like you never run before,  
run baby like you never run before. (yeah).

[Chorus:]  
Hold on to me I'll never leave.  
'Cause we can't keep running on empty, keep on  
running.  
hold on to me (Chrishan: hold on to me),  
if you believe (girl: if you believe).  
'Cause we can conquer this whole world together,  
conquer this whole world together baby.

Chrishan: baby  
(Ohh)  
Girl: no ohh  
(Ohh)  
Both: oh yeah yeah

[Bridge:] (both)  
Can you run baby like you never run before,  
run baby like you never run before,  
run baby like you never run before.
