I just get my last caught ...

I just get my last caught date  
Now I heard they looking for me where I go  
And my mama's house just got raided  
I can't even show my face at my home  
Got a brand new kick everyday  
But now I'm terrified to fly to my shows  
And I did so much that it's a bit late  
Man you wouldn't f\*cking believe it if I didn't tell you so

She said I was a liar, I didn't love her  
Keep the work buss, and he clever  
And I know when we go down if I ever touch her  
So I just wanna let her, you stupid motherfcker  
should have, could have, would have but I never did  
that  
I should have, could have, would have, but I never hit  
back  
I said that if you love somebody you should let him go  
But I'm like this please you ain't never let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go

Check my ID at the club

Now I can't even go get another one  
Cause if they put the ?? up I know I'm going for luck at  
least a ??  
And I'm tryin to hit ?? but these haters keep on giving  
me the run  
Men if I know ?? she at work, I never would have called  
the cops on earth

She said I was a liar, I didn't love her  
Keep the work buss, and he clever

And I know when we go down if I ever touch her  
So I just wanna let her, you stupid motherfcker  
I should have, would have, could have, but I never did  
that  
I should have, could have, would have, but I never hit  
back  
I said that if you love somebody you should let him go  
But I'm like this please you ain't never let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go  
You can't let me go, you can't let me go

I just get my last caught date
