I've lost my air supply
You didn't cut it off
Ignoring all my calls
I did left you 20 messages
Do I even exist to you

Look what you did
You broke your promise
Thought we was honest
But look where it got us

Where did I go (go)
What did I do (do)
Gave you my heart (heart)
But now it's over (over)
Where did our love go (go)
Girl, it got cold
(It got cold)
Girl, where'd it go (go)
Where'd it go (go)

Oh oh oh

I feel like I've lost everything
(Everything)
Yeah
(Everything)
And these here []
Are the only ones I know how to see
(How to see)

Look what you did
You broke your promise
Thought we was honest
But look where it got us

Where did I go (go)
What did I do (do)
(What did I do)
Gave you my heart (heart)
(Gave you my heart)

But now it's over (it's over)
Where did our love go (go)
Girl, it got cold
(Girl, it got cold)
Girl, where'd it go
(Tell me, where'd it go)
Where'd it go
(Tell me, where'd it go)

Give me one minute of your time
Give me one minute of my life
Give me one minute of your time
Give me one minute of my life
Give me one minute of your time
Give me one minute of my life
Give me one minute of your time
Give me one minute of my life

Where did I go (go)
What did I do (do)
Gave you my heart (heart)
But now it's over (over)
Where did our love go (go)
Girl, it got cold
(Girl, it got cold)
Girl, where'd it go (go)
Where'd it go (go)
Where did I go
What did I do
Gave you my heart
But now it's over

I've lost my air supply
