2 am and I'm here calling you on your cell
You never pick up and I'm like ay what the hell
I'm texting like, are you mad at me?
She text me back, you should know
I should know what
She won't tell me, somebody help me

5am and she come in the house I straight trippin
Here you go yo sidekick
Who's this girl named Brenda
I don't know how her number got in my phone
But I'm a make sure that you know that your...

My number, my number, my number one girl
Shawty how you think I'd fake it, how you think I'd fake
it
My number, my number, my number one girl
Sorry gotta break it, but girl here's the thing is

Your Hips, your thighs, your lips, your eyes
Your Hips, your thighs, your lips, your eyes
Girl I can't even get enough of your love
Why would you do this to me

Tell me what to do without you here
My life is incomplete.
And I know they say that life ain't fair
I just need you with me
And I don't wanna fuss don't wanna fight,
Girl I just want for us to make it right.
Baby why, don't we just work it out tonight
Work it out tonight

7am she's still tripping
I'm trying to keep it cool
Keep myself from dippin', cause on the real,
I'm tryna dash out, cause on the real,
Get it to 100 like,
Pedal to the floor like,
But I can't do that to her no.
So I try stay and work it out
But I don't know what she talking bout

Girl I told ya I don't know how she got in my phone
Baby don't leave me alone tonight
Because...

My number, my number, my number one girl
Shawty how you think I'd fake it, how you think I'd fake
it
My number, my number, my number one girl
Sorry gotta break it, but girl here's the thing is

Your Hips, your thighs, your lips, your eyes
Your Hips, your thighs, your lips, your eyes
Girl I can't even get enough of your love
Why would you do this to me

Tell me what to do without you here
My life is incomplete
And I know they say that life ain't fair
I just need you with me
And I don't wanna fuss, don't wanna fight,
Girl I just want for us to make it right.
Baby why, don't we just work it out tonight
Work it out tonight

I don't wanna leave and face the world
Without you as my girl yeah
I don't wanna fake it, I just couldn't take it
Girl I'm telling you the truth...
That baby all I need is you, so don't go
And I say it cause I love ya, say it cause I love ya girl,

Tell me what to do without you here
My life is incomplete
And I know they say that life ain't fair
I just need you with me
And I don't wanna fuss, don't wanna fight,
Girl I just want for us to make it right.
Baby why, don't we just work it out tonight
Work it out tonight
