When there's a tear in your eye  
And words that are lost  
When we have to say goodbye  
Know there's a place in our heart

Even though we're apart  
We call it heaven's lullaby  
When you're alone in the night  
The world's closing in

You've just got to hold on tight  
Call my name I'll be there  
You can go anywhere  
In a heaven's lullaby

The whole world stops  
When you shed a tear  
Then a rainbow will appear  
All the angel's up on high  
Sing a heaven's lullaby

Spread your wings and fly into my heart  
Forever we will hold tonight  
We both know that it's real  
Timeless and still in a heaven's lullaby

The whole world stops  
When you shed a tear  
Then a rainbow will appear  
All the angel's up on high  
Sing a heaven's lullaby
