Call me up, call me up, when you want to feel down
Simmer down, simmer down, you are all wound up
It's like novocaine, you'll never know
It's like novocaine, just let it go

Hit me up, hit me up, but don't knock me down
Shout out loud, shout out loud, but don't make a sound
It's like novocaine, you'll never know
It's like novocaine, just let it go

You and me are over

We go together you and me
Like sunshine
You and me

And I know it's all over now
Never let go of you

Tie me up, tie me up
It's like novocaine

Tie me up, tie me up, my hearts feeling bound
Sign me up, sign me up, I'll always be around
It's like novocaine, you'll never know
It's like novocaine, just let it go

We go together you and me
Like sunshine
You and me
Are over
