Arrest the president

Too much affection with no protection  
Leads injection to infection  
Now you're pregnant, baby to carry  
You love Barry, but he won't marry  
Got an abortion, spent a fortune  
Shoulda used caution, mind-distortion  
Out of touch, out of tune, and out of time  
You're damn near out of your mind  
Slit your wrist, cause you couldn't live through it  
Now you claim that the devil made you do it  
Undertaker, he'll just make a  
Coffin to fit ya and take your picture  
Pull out the bible, bust the scripture  
It's too late, Tragedy hit ya  
Life is a gift you took for granted  
Your mother's buggin, her mind is slanted  
Pain so deep in her heart it's planted  
Someone yelled out: Get the hell out  
Evil fell out, but I'm no sell-out  
Black's the mineral, white subliminal  
Arrest the president, he's the criminal  
No one's laughin this, I keep rappin this  
He's the happiest, we're the nappiest  
He's the vulture, study your culture  
Broke the sculpture to insult ya  
Underrated, we're all related  
Assassinated, I just hate it  
Mothers cryin, brothers dyin  
Someone's lyin, I keep tryin  
Doin it right, ready to fight  
Shedin a light, steady in flight  
Pro-black explosion, doors are closin  
Brains are frozen, I'm the chosen  
Allah's the force for my ressource  
To slay on course without remorse  
Flipped and flopped it, hipped and hopped it  
I just dropped it, no one stopped it  
Poetical prophet, political topic  
Don't reject this, just inject this

Bold in blackness, young and reckless  
Non-recruitable, anti-shootable  
The name is suitable, black is beautiful  
Mind was empty, now it's filled in  
Time for buildin, teach the children  
You wanna erase my misplaced race  
Just to make America a beautiful white place?  
That's not happenin, I'll keep rappin, and  
Crowds attractin, and you're subtractin, and  
I discover, unite the lover  
Teach the brother, fight the other  
Young black eagle hunting evil  
I want peace, but that's illegal  
Young brothers doin life in prison  
Love is life and life is worth livin  
Al Aslam, read the Koran  
Grab the mic and drop bombs  
Threw on my boots, stepped to my roots  
Black is dominant, that's enough proof  
Separation of integration  
Strong foundation, Nubian nation  
Microphonist blessed with a bonus  
Pray to give thanks and help the homeless  
Use the mind the creator gave ya  
Won't enslave ya, but he'll save ya  
There's no debate, time to penetrate  
I can't wait for the pain to deflate  
I'm livin in a land of hate  
Take my hand, blackman, and let's stand  
And find this promised land  
Arrest the president

Politics, polished tricks  
Makes me sick, ready to flip  
Pimpin ain't easy, it's greasy  
Grimy, slimy, slouchy, sleazy  
Who the fuck you think you are, mister?  
Tryin to pimp some young black sister  
Still talkin that pimp shit talk  
Pretty boys don't survive up north  
Now you're turned out, you shoulda got out  
Time has burned out, sad how you found out  
Money and cars made you feel real good  
Tell me, was it worth your manhood?  
Homicidal, that was your title  
Pimpin is vital, now you're suicidal  
Revolution, execution  
Mind polution, no solution  
Disregard it, heart of harlem  
Had no pardon, snake in the garden  
Culture stealer, big high wheeler

Arrest the president, he's the drug dealer  
Chief command and got his hand in  
Drugs demandin, kept it standin  
Hands were dipped in, someone flipped in  
Made a mistake and stopped the shipment  
F.B.I. fronts the fourth guy  
He can't lie, so it's time to fry  
Witness greedier, cause the media  
Scared to death and his heart gets speedier  
Life in prison, he starts bitchin  
In a few months, he'll be snitchin  
A new collection, police protection  
Misconception, no direction  
New face, new name, same game  
You took the blame  
Case gets older, lost in folder  
Yo. they played ya out like a soldier  
Tapped your phone, bugged your residence  
Yo, arrest the president

(Arrest the president)  
Arrest the president

Arrest the muthafuckin president

(Arrest the president)
