Well there's a special place in my memory  
Where I keep the pictures of a time and place I left far  
behind  
And I know the years have probably colored the way it  
really was back then  
But still I like to take the memories out and look at 'em  
from time to time  
There's a full moon tonight on the prarie, a memory  
just rode into view  
A boy a buckskin and an ole spangler dawg, in the hills  
where the blue bonnets grew  
Well I was deep in the heart of Texas just a kid bout  
thirteen at the time  
Runnin' wild through the mesquite the cedars and  
cactus  
It's been years but your still on my mind  
No matter where I might wander there's a memory that  
I'll never lose  
The Lonestar shines bright in my heart tonight I've got  
the blue bonnet blues  
Well I remember those warm summer evenin's playin'  
out under the stars  
Back then I never dreamed we'd be leavin'  
But I guess things just don't stay as they are  
Well the years and the miles came between us but  
tonight as I'm dreamin' of you  
Once again I'm a kid in the sweet arms of Texas and  
I've got the blue bonnet blues  
No matter where I might wander there's a memory that  
I'll never lose  
Cause the Lonestar shines bright in my heart tonight  
I've got the blue bonnet blues  
The Lonestar shines bright in my heart tonight I've got  
the blue bonnet blues
