Well its good to see you folks tonight I hope you got
your hats on tight
And I hope you're ready to hear some cowboy songs
You can listen up or party down have a cup or stick
around
There ain't no blues gonna hang around here too long
Cause tonight we came to have a down home good
time
Gonna do some songs about this western land
We might even pick until the morning sunshine
We the wild and wooly saddle boogie band

If your tired of love sick blues cheating songs that were
born to lose
Well boy I'll tell you you came to the right place
We're gonna do some western soul a little cowboy rock
and roll
Guarantee to put a smile right on your face
Cause tonight we came...
