"Making Ends Meet"

Visit "[Making Ends Meet](#)" on MotoLyrics.com

He left for work and he never came back now Mary has
to face the fact
That it's up to her to start a new life with two kids and
just one job
It's gonna' take all the strength she's got
Well it's a hard row but she knows somehow she'll
survive
Making ends meet holding her own
Not afraid of a hard days work to give her family a
home
Ain't nothing gonna break her stride there's too much
love and pride
Standing on her own two feet making ends meet

Bobby just a regular Joe his daddy's farm is all he
knows
With calloused hands he works the fields each day
The banker says the loans come due and Bobby knows
there's a lot to lose
Well it ain't fair and it's a lot to bare but you won't here
him complain
Making ends meet...

When hard times come and test the faith of folks like
you and I
God bless the ones who stand up tall and don't give up
the fight
Making ends meet...
Standing on their own two feet making ends meet
