"Struggling Years"

Visit "[Struggling Years](#)" on MotoLyrics.com

We had our fill of old junk cars and unpaid bills
But our love was clear in the struggling years
Up against the world four young boys and our little girl
We fought life's fears in the struggling years
And hard times came easy and so did the tears
Strong were the ties that bound you and I in the
struggling years

[piano]

Time brought success and I always said you'd have the
best

But the times we hold dear are the struggling years
And when the kids are grown and startin' out on their
own

We'll miss them here and the struggling years

And hard times came easy...

Strong are the ties that bind you and I thank the
struggling years
