The voodoo music got the whole world on the go

The voodoo music's all over the world
And look what it's doing to the beautiful girls
It's got them jumping and acting real crazy
The voodoo music gonna knock you crazy

Voodoo, the voodoo
The voodoo music got the whole world on the go

The voodoo music have infected the boys
They jump real crazy and they laugh with joy
It makes them feel like they own the world
It makes them think they is controlling them girls

The voodoo, the voodoo
The voodoo music got the whole world on the go

The voodoo music got the whole world on the go

The voodoo music will get to you
Make you pat your feet and make you happy too
You pat your hands and you jump about
The voodoo music gonna knock you out

The voodoo, the voodoo
The voodoo music got the whole world on the go

Everybody's dancing and singing
I see them going round and round singing
Voodoo, round and round, the voodoo

The voodoo music got the whole world on the go
Everybody's dancing round and round
The voodoo music got the whole world on the go
The voodoo
