You know I love you,
You know I always will!
You know I love you,
You know I always will!
No matter what you say or do
No matter what we're going thru;
Hunny bunny baby I want you!
Ba ba ba ba ba!
7 days and 7 lonely nights
When you are gone, hey I won't survive!
Please hurry hurry back again,
I'll be waitin' hunny until then.
I want you to know: you're my best friend!
Ba ba ba ba ba
Oh oh oh baby don't you know
The situation won't let go!
It's all for real!
And hey-hey baby after all
We seem to be like John and Paul
Like Rubber Soul - a beautiful team!
Yeah yeah!
I found an apple, an apple in the mud!
I took a bite it tasted really good!
So hurry hurry back again,
I'll be waiting hunny until then
Let's keep on dancin' 'til the music ends!
Ba ba ba ba ba!
Oh oh baby don't you know
The situation won't let go!
It's not a dream!
And yeah-ey baby after all
We seem to be like John and Paul
In Rubber Soul - a beautiful team!
A beautiful team!
Yeah!
