I can't stand to be alone  
'Cause I go crazy when you're gone  
You're the one that makes me whole  
I pray, you've known this all along

Everything is gonna be alright  
I wanna be with you all of my life

I can't wait to be alone  
With you, baby in my arms  
Girl, I need you here to hold  
You know your love it shines like gold

Baby, every minute of the night  
That I'm not with you, I don't feel right

'Cause I only wanna be with you  
Baby and nobody else  
Yes the only girl, I see is you  
Baby and nobody else  
Baby and nobody else

Solo yo no quiero estar  
Sin tu carino y tu amor  
No quiero vivir sin ti  
En mis brazos te quiero asi

Tu eres la unica mujer  
Te quiero en mi vida por tu querer

Yes, I only wanna be with you  
Baby and nobody else  
Yes, the only girl, I see is you  
Baby and nobody else

If I only wanna be with you  
Baby and nobody else  
If the only girl, I see is you  
Baby and nobody else
