Are you lookin' at the moon tonight?  
You even brave enough to try  
To find your strength inside  
Change your mind, decide

'Cause I fell from the sky  
I tried to catch your eye  
In a velvet sky  
Did you wish upon a fallin' star?

Do you know where you are in your life?  
Are you walkin' in between the lines?  
'Cause I can tell by the look in your eyes  
You're hurtin' way down inside

'Cause I fell from the sky  
I tried to catch your eye  
In a velvet sky

Did you wish upon a fallin' star?

Afraid to leave your pain behind  
Never know what you're gonna find  
But when you look up at the velvet sky  
You will finally come alive

Hey baby, 'cause I fell from the sky  
I tried to catch your eye  
In a velvet sky  
Did you wish upon a fallin' star? Oh

Fell from the sky  
I tried to catch your eye, baby  
In a velvet sky  
Did you wish upon a fallin' star?

Oh, did you wish upon a fallin' star?  
Oh, did you wish upon a fallin' star?  
Hey baby, did you wish upon a fallin' star?
