All of the things we do, sometimes they don't seem  
right  
But don't let it get you down 'cuz it's gonna be alright  
Time can beat you down and bring you so much pain  
Getting the best of us and taking away those sunny  
days, yeah

You can't see the light when you're down  
You can't see the light when you're down

Remember the ones you love and keep 'em close to  
you  
When those times get tough and they'll be there for  
you

The world can break your pride and leave you feeling  
blue  
But don't let it waste your time 'cuz we're gonna make  
it through, yeah  
We're gonna make it through, it's up to me and you

You can't see the light when you're down  
You need to pick yourself up off the ground  
There's a way to turn your life around  
But you can't see the light when you're down

Across still waters to the sea of pain  
It'll all come together at the end of the day

Everywhere you turn, it seems as though you get  
burned  
And even when you try, it still so hard to get by  
Don't ever lose your faith, it gets you through the day

You can't see the light when you're down  
You need to pick yourself up off the ground  
There's a way to turn your life around  
But you can't see the light when you're down

You can't see the light when you're down  
You can't see the light when you're down  
You need to change your life all around

But you can't see the light when you're down  
Oh, you need to see that light
