"All About YOu" written and sung by Chris Ray

verse one

you're touching me  
(i]m touching you)  
got your body (in the nude)  
baby girl you're into me (i'm into you)  
got the candles burning like my love for you, kiss you  
on your back to get you in the mood, baby girl you  
know there's nothing I wont do once we get in the  
room, girl it's all about you and me .. making love  
...extacy , all night long (dont) forget to breathe

pre hook

slow it down  
speed it up  
kiss it soft  
get you off  
girl you know there's nothing that I would not do once  
we get in the room girl it's all about you

hook

I just gotta hold you baby  
girl I want you to be my lady  
don't know what to do without you girl i'm going crazy  
I know you're the best thing for me been a best friend  
now you got me lonely  
don't know what to do cuz baby girl it's all about you  
I just wanna touch you baby , you got me going crazy  
there's something about you now  
girl I swear it's all about (you)  
I just wanna love you baby, you got me going crazy  
there's something about you now girl I swear it's all  
about

Time for Bed  
(i'll tuck you in)  
kiss you're lips  
(you're quiverin)

in)

Baby girl i'd never leave ya, trust me girl i'd never  
cheat ya , never raise my hand to hit ya only be  
romantic witcha  
baby girl you know there's nothing you've been thru  
that could make me wanna take my love away from  
you(nooooo)
