All change on the merry go line  
Everybody looking, for a sign  
Jumping up and down, when the switch goes on  
Nobody knows where it's coming from  
I'm here watching, keeping well away  
I'm going to live it in my own way  
No mister! Not me!  
I'm staying here, where it's nice and free  
In deep water  
I see the captain on a distant shore

He's got a dream, he wants to make it law  
He's got my number, he's got a plan  
He'll try to get you, any way he can  
He wants to own everything he sees  
But while I'm out there, well he ain't with me  
Singing...  
No mister!  
No way!  
I got my own  
Deep water  
Deep deep water
