Well, now come on easy rider  
Gimme something for my pain  
Well, now come on easy rider  
Though I know you're not to blame  
You see, the dogs are out to get me  
And pull me down, again, yeah

Well, now come on easy rider  
Turn this screaming fire down low  
Yeah, come on easy rider  
Pull this pain and let it go, please, let it go  
This time around, don't think I can take it  
This twisting pain I've come to know

Easy rider  
The dogs are out to get me  
And pull me down, again, yeah  
Easy rider, help me, easy rider  
Easy rider, oh yeah, easy rider

Well, now come on easy rider  
Gimme something for my pain  
Yeah, come on easy rider  
Ooh, come on easy rider
