I'm stood out with my brother
On a tree lined avenue
I see the sweetest little creature
Comin' into my view

And I say to myself
I say, "Man I'm gonna get me some, yeah"
Of that bright little angel
Shines like the morning sun

Well my brother steps in, faster than light
And he sweet talks this angel, clean out of sight

I say, "Hey you, you with that look in your eye"
Hey you, you with that look in your eye

Well, she moves like a river
From her head down to her toes
Oh, it's less a way of walkin'
More a total flow

And I say to myself, I wonder
Oh, I wonder if she knows, yeah
What she's doin' to me and my brother
From our heads down to our toes

Well, he's up there on the corner now
He's playin' up that Romeo like only he know how

I say, "Hey you, you with that look in your eye"
Hey you, you with that look in your eye

Hey you, you that make the stars shine
Hey you, you with that look in your eye

Hey you, you with that look in your eye
Hey you, you with that look in your eye

Hey you, you that make the stars shine
Hey you, you with that look in your eye
