Look deep into the April face  
A change is clearly taking place

Looking for the summer

The eyes take on a certain gaze  
And leave behind the springtime days

Go looking for the summer

This ain't no game of kiss and tell  
The implications how you knew so well

Go looking for the summer

The time has come and they must go  
To play the passion out that haunts you so

Looking for the summer

Remember love, how it was the same  
We scratched and hurt each other's growing pains

We were looking for the summer

And still I stand this very day  
With a burning wish to fly away

I'm still looking  
Looking for the summer

Looking for the summer
