Empty eyes cold as ice  
Human bomb lost in lies  
Innocent blood shall pour  
Reign of hate, holy gore

Blow yourself to the grave  
Suicide, mental slave  
Brutal death, shrapnel flies  
Shredding flesh, children dies

Endless terror strikes again  
Morbid bastards master plan

Obnoxious and decadent  
Ferocious begotten  
Mentally lost, they are set to explode  
Breeding the spawn so their brains will corrode  
Mind rotting cowards plays God on demand  
Martyrs immortal in fantasy land

Cruel device, heaven sent  
Warped insane, mortal bent  
Executes cryptic faith  
Hollow fools detonates

So religion made you blind  
Now your coffin suits you fine
