### "Poison Caged"

Welcome to the world of nothing  
We are reckless, extreme  
Euphoric discomfort  
Ebola for the mainstream

Silent walls, hopeless souls  
Brains erased, poison caged

Entangled within mysteries  
Demented dancing at dawn  
Now we are no more inside  
Embody an alien design

Within the darkest soul  
Death becomes sure  
Friends are for the weak  
Death is the cure

Senses bereft, no sanity left  
Merciless pain for the insane

Take things to a different level  
Never mind to bullshit us  
Spawn a breed of moron bastards  
Sorrow buried in our loss
