Let's see these niggas gummin'  
Since '86 we had the streets hummin'  
I bet these niggas never seen it coming  
Every days a crisis

Seems like paying dues, is paying prices  
It's time to show these niggas whose the nicest  
With these rap devices  
We keeps nothin' but the chicks up in the cypher

For ya suckers catchin' this is the cypa  
Rumor sneakin', rise and shine  
Plus niggas count cheddar  
We see y'all niggas bouncin' kid, but yet we bounce  
better

On the stool, we drink again, let's rollin' up the bat  
Freestyle a tracks, hit the party up and back  
Money comes in stacks, I guess we movin' on up now  
So what's up now?

Ghetto superstars, rhymes of the foreign year  
Should we be spittin' and be hittin' niggas par and  
there  
Basically my spills is vicious  
I push a '99 Savan, while you stand around and look  
suspicious

We got that hot shit  
Straight from the block shit  
And when we rock kid  
We blow your spot kid

We got that hot shit  
Straight of the block shit  
And when we rock kid  
We blow your spot kid

Yo, I was born to be a trouble maker  
That's what they said, I be in jail for gettin' all this  
paper  
Or probaly dead niggas a hate ya, even chips will

snake ya  
A little bread will make a motherfucka turn you in

Right to the feds  
Try me and watch, get knocked, I'm lyin' to cops  
Advance, born to bridick kept supplyin' the spots  
All my niggas in the streets know

I'm not the one, I pack a gun and let the heat blow  
It's deep though  
I want my whole team to see dough  
And even though we got to live with steel we heat po

We gotta get it, I do this for fun  
I do this for my ones, I do this with guns  
So be neutral and run  
And in the process if I get knocked, fuck my pops

Give my mom and seed all I got  
My loyalty is all I got from my family  
To hold it down and represent, it's just the man in me  
You feel me, feel me?

We got that hot shit  
Straight from the block shit  
And when we rock kid  
We blow your spot kid

We got that hot shit  
Straight of the block shit  
And when we rock kid  
We blow your spot kid

We got that hot shit  
Straight from the block shit  
And when we rock kid  
We blow your spot kid
