"No Room For Us"

Visit "[No Room For Us](#)" on MotoLyrics.com

Our souls balanced on a wire
Below is a consuming fire

If there's no room for doubt now
There's no room for us
Inside and out now
He's looking for us

Christ comes
Fill the empty places
To breathe
We must find the spaces

If there's no room...

And none of us are safe
Here in the dark

We try to touch his hand
Here in the dark

We know it's death to see his glory
We're here alive to tell the story

If there's no room for doubt now
There's no room for us
In side and out now
He's looking for us...

To breathe
We must find the spaces
He's looking for us
