Ooh oh yeah  
It doesn't really matter too much to me  
Don't matter, don't matter, don't matter  
Your friends think that you too old for me  
Don't really matter, don't matter, don't matter  
If i'm runnin round tow sayin you're my girlfriend  
Don't really matter, don't matter, don't matter  
And i'ma need you the same for me  
Don't worry about my age

Chorus:  
'Cause I'm old enough  
Old enough to love you, old enough to touch you  
Old enough  
If they ask you about my age you say I'm old enough  
Old enough, old enough, old enough, old enough  
Say that old enough, just say that I'm old enough  
And if they ask you bout my age just say I'm old  
enough  
Yeah yeah yeah yeah

I know you're used to guys that are older than you  
Don't matter, it don't matter,  
But they losing every time 'cause they don't know how  
to carry you  
Baby i hold you close, never let you fall  
I'll do it right girl i won't try to ball  
Don't be afraid to let me show you what love can do  
... for something new

[Chorus:]  
Baby it's alright and understand  
I'm just tryin t show you all  
Different grant  
What is love with you gonna take a chance  
I'ma telling you i'm a sure thing

[Chorus:]
