So you got your last wish
You're where you wanted to be
All you wanted's here
All but what you need
So you miss your life
And you miss your family
You want the simple things
The way life should be
And I know what you're thinking
With your head in your knees
And I know what you're dreaming
When you talk in your sleep
When you talk in your sleep
Don't let it get you down
Or make you suffer
You'll get over it
Just like the others
And I know what you're thinking
With you head in your knees
And I know what you're dreaming
When you talk in your sleep

When you talk in your sleep

Don't fall asleep

And don't close your eyes

Do what you can

But don't dream tonight
