Coming out so simple  
Coming out so clean  
Coming of so easy  
Coming off real mean  
Making impressions  
Around a new face  
Coming off so easy  
Coming off real mean

Let me show you my real face  
(Real face, just so you can see)

Can I take you for my own  
Or see if I can  
Coming off so easy  
Coming off real mean  
Closer than ever  
To what I believe  
A life without worry  
That someone might leave

Let me show you my real face  
(Real face, just do you can see)

Just so can see  
What's happened to me  
What's happened to me
