She hides in the shadow of her friends  
Her lies go on without an end  
Makes herself the tragic victimized  
Talks of you but never in your eyes

This is all I ever have to say  
This is all I ever want to say  
H?ren Sie mir zu

I want to be the talk about  
While the world is crashing all around  
Get a news team on my case  
And please talk, talk about it, talk  
Talk about it

It's something you can never hide  
It'll eat you alive from the inside  
It's insane yet I can't explain  
But it happens time and time again

Don't cry when the rumor is on you  
After all that's all you ever do  
Spread the words that never tell the truth  
Bitte gehen Sie weg

This is all I ever have to say  
This is all I ever want to say  
H?ren Sie mir zu

I want to be the talk about  
While the world is crashing all around  
Get a news team on my case  
And please talk, talk about it, talk  
Talk about it

Take the time to look around  
When all the world is without sound  
You'll have that ringing in your ear  
It's all you'll ever hear

I want to be the talk about

While the world is crashing all around  
Get a news team on my case  
And please talk, talk about it, talk  
Talk about it

Take the time to look around  
When all the world is without sound  
You'll have that ringing in your ear  
It's all you'll ever hear
