Come bleed with me  
Let us bleed  
Let us bleed together  
Come bleed eternally  
Let us bleed  
Let us bleed forever

[chorus]  
Blood and fire  
Love and sweet desire  
Fire and blood  
Come join these flames  
Come join this love

She smiled and a glimpse of sunshine  
Stormed inside my coal black mind  
But again there was light  
In the wastelands of my heart

Come burn with me  
Let us burn  
Let us burn my friend  
Come burn eternally  
Let us burn  
Let us burn to the end

[chorus]
