

Lost In Translation "In The Moment"

Visit "[In The Moment](#)" on MotoLyrics.com

Time can't keep us down
We're only rising up
We watch the minutes slip away
But it's not passing us
We're breaking down the walls
To let in the light of day
Though the shadows were home to us
We're making our way
Through the crowd
Around the city light
It's in us
(Here we go)

Can you feel it
Rushing through your veins
Can you hear it
Tossed inside your brain
Now it's time
To let everything else go
Never thought it'd be the way it is
But something's were mislead
In my mind
Your colors fade away
In my mind
Our nights turned into day
We were feeling
That we could not just let this go
Never thought it'd be the way it is
But something's were mislead

The night was long
A shadow of the day
Time spent searching
For any way to take
A road left barren
With nothing in the way
Here's our time to run
To the horizon we'll take it
All the way
We're leaving yesterday
It's our time to shine so
(Here we go)

Can you feel it
Rushing through your veins
Can you hear it
Tossed inside your brain
Now it's time
To let everything else go
Never thought it'd be the way it is
But something's were mislead
In my mind
Your colors fade away
In my mind
Our nights turned into day
We were feeling
That we could not just let this go
Never thought it'd be the way it is
But something's were mislead
Now were breaking out of the shadows

Never felt so alive
Consumed by the fire that burns inside
A heart beat skipped
Never to return
(Never to return)

This is when it all goes
(When it all goes down)
This is when it all goes
(When it all goes down)

Can you feel it
Rushing through your veins
Can you hear it
Tossed inside your brain
Now it's time
To let everything else go
Never thought it'd be the way it is
But something's were lead
In my mind
Your colors fade away
In my mind
Our nights turned into day
We were feeling
That we could not just let this go
Never thought it'd be the way it is
But something's were mislead
This moment wont pass us by
(Pass us by)
