Please don't fail me now
My heart keeps slowing down
The air I breath is cold
You're not here to hold

(Please)
(Make this pain flee)

I keep on falling down
Can not find solid ground
I've been here before
Could never find the door

(Please)
(Make this pain flee)

Please
Make this pain flee
It's eating me peice by peice
I have to find a cure for this disease
Make this this pain flee
It's eating me peice by peice
I have to find a cure for this disease

I never feel like me
The days that we don't see
I have to face the truth
I'm nothing without you

(Please)
(Make this pain flee)

I'm losing my head now
I sunk and now I've drowned
I have to face the truth
I'm nothing without you

(Please)
(Make this pain flee)

Please
Make this pain flee

It's eating me peice by peice
I have to find a cure for this disease
Make this this pain flee
It's eating me peice by peice
I have to find a cure for this disease

I can't take it
I can not make it
Cause' it hurts
(Make this pain flee)

You're so sacred
I need you to take me
To the cure
(Make this pain flee)

Please
Make this pain flee
It's eating me peice by peice
I have to find a cure for this disease
Make this this pain flee
It's eating me peice by peice
I have to find a cure for this disease

Please
Make this pain flee
It's eating me peice by peice
I have to find a cure for this disease
Make this this pain flee
It's eating me peice by peice
I have to find a cure for this disease

The days have passed me by
Please don't fail me now
