Is life or death]

In agony we are now

Twisted unblessed we must strive...

Repulsed by the false harmony

Blinded by truth that eyes can't hope to see

Foolish man must die

For the sins that he creates

Forgive lord - we must be weak

Remove the weight of sin

Release harmony

Resist the throes of his embrace

Ignorant laws thrust in our face

[Is life and death

For the sin that he creates

Forgive lord - we must be weak

Remove the weight of sin

Release harmony

Raptured
