Courage my friend!  
Forget yourself  
Leave all behind  
Release your fear  
The world denied

I am the bringer of the Void

It is a long trip  
Of soul that will never rest  
So, take deep breath  
'cause we are going home

To the New Light  
Can you hear the Serpent's call  
To the New Light  
You shall fall ...  
Find it, absorb  
Teach your children how to fly  
Love is the Law  
Will is the core

Listen my friend!  
Remember unholy ways  
Burning inside your head  
The world is your again ...
