Baby if you want to see  
Everything that is wrong with me  
I don't know what to say  
And when it gets as late as this  
I tend to mess up every kiss  
So darling just you wait

I'm gonna tell you cause  
It is not a secret yea  
And it is not so hard to imagine  
How you came to steal the show

Sometimes I think that  
You're just about everything  
I've been looking for  
But it is worth the price  
Of messing up both and twice  
Yeah I'm not quit sure

But I can tell you that  
It beats the silence of  
Sitting by yourself  
And it is not so hard to imagine  
That you broke into my shell

Life is no simplicity  
As we want it to be  
But you already know  
And every problem that  
You see comes on twice as  
Strong for me but I gotta let it show

I'm gonna tell you cause  
It is not a secret yea  
And it is not so hard to imagine  
How you came to steal the show
