Do you take life for granted or take it  
For what's it's worth  
Do you think you'll get rewarded  
If you suffer down on earth  
Believe you'll burn eternally  
If you live your life in sin  
When you reach the pearly gates  
Saint Peter just won't let you in

Do you believe in demons  
Do you believe in God  
Do you believe...

Do you believe in life before death  
Do you believe in life beyond flesh

Are you the kind who is dying  
To live on the other side  
The kind who thinks life is lying  
Ready to take whatever death provides  
Or do you live in anguish  
In fear of the unknown  
That we will surely perish  
When the ship is going down

Live like there is no tomorrow  
Getting ready to leave this life  
Filled with lies and sorrow  
Filled with lies and sorrow
