7 colours COME across the sky  
and I remember my 1st rainbow  
seems like 1000 years ago I ASK..  
mama whats a rainbow for?  
she said after the rain comes after the rain  
after the rain comes the sun

she said after the rain comes  
after the rain comes the sun

after the rain comes the sun

7 colours COME across the sky  
and I remember my 1st rainbow  
seems like 1000 years ago I ASK  
mama whats a rainbow for?  
she said after the rain comes after the rain  
after the rain comes the sunnnnnnn.....
