Everything will be perfect, tonight and forever  
light shine off, light shine on  
making our faces many colours  
everyone is moving, like waves make ocean, on and on  
everybody is singing, yes, this is happiness is  
happening

la la la la la  
la la la la la la la la la  
la la la la la la la la la  
la la la la la

Everything will be perfect,  
Everything will be perfect,  
Everything will be perfect,  
tonight and for ever

Everything will be perfect, tonight...
