The sound here is a corrupt wave  
This here treasure is a find  
Pleasure or pain, gotta write the feelings down  
I lie captive on the night train  
The past flows silently outside  
Scribe stir crazy this tin can  
Belief is written to incite

I can nearly taste the clear lake  
Where Elysium resides  
You've got a lot of heart but this is goodbye

I condemn your revolution  
As a witch hunt through chaos through all time  
I'm well versed but evolution stirs my mind  
Renounce all hallelujahs  
Your god is on the beach, not in the sky  
A love for the mystical finds me  
A technicolour mission for the eye

A leap into the real world  
Where reality defies  
Conspiracy surrounds us, this is goodbye

Lonely, give into the lonely  
We're staring into endless space time  
Lonely, give into the lonely  
We're staring into endless space time

Dazed and dizzy and starved of touch  
Our explosion makes us limitless  
Rise up and sleep a life  
Lost and lonely survived by  
Stark memories of a distant time  
Raise your feelings high  
Jaded vision in your eyes trust  
You got to relay what you saw  
And capture all your thoughts

I can nearly taste the clear lake  
Where Elysium resides

You've got a lot of heart but this is goodbye

Lonely, give into the lonely  
We're staring into endless space time  
Lonely, give into the lonely  
We're staring into endless space time

Lonely, give into the lonely  
We're staring into endless space time  
Lonely, give into the lonely  
We're staring into endless space time

Lonely, give into the lonely  
We're staring into endless  
Give into the  
Lonely, give into the
