Everybody's screaming, we're only bleeding
Everybody's screaming, we're only bleeding

I'm sick of watching my mouth with everybody looking
at me
And I'm sick of wasting my time, this life won't offer
nothing for free

No good for me
No good for you
You walk away I see it thorough
Don't turn your back it's not alright
I'm out tonight and I want to

'cause I see the world through bloodshot eyes
And I can't decide who's on my side

Everybody's screaming, we're only bleeding
Everybody's screaming, we're only bleeding

I'm in town, looking for release tonight
(Everybody's screaming baby)
Why did you look at me? Always making me fight
(Everybody's screaming baby)

I'm sick of working all week for people I cannot stand
I'm sick of watching you all stick your f** a** back into
the sand

No good for me
No good for you
You walk away I see it thorough
Don't turn your back it's not alright
I'm out tonight and I want to

'cause I see the world through bloodshot eyes
And I can't decide who's on my side

Everybody's screaming, we're only bleeding
Everybody's screaming, we're only bleeding

I'm in town, looking for release tonight
(Everybody's screaming baby)
Why did you look at me wrong? Always making me
fight
(Everybody's screaming baby)

Fight

Everybody's screaming, we're only bleeding
Everybody's screaming, we're only bleeding
Everybody's screaming, we're only bleeding

I'm in town, looking for release tonight
(Everybody's screaming baby)
Why did you look at me wrong? Always making me
fight
(Everybody's screaming baby)

Everybody's screaming baby...
Everybody's screaming baby...
Everybody's screaming baby
