It's not that easy to believe that someone as fly as me
would like someone like you
Take it easy baby too
It's exactly now and it's daytime too
I don't know who you are but you haven't come that far
What seems to be the problem is that there's no place
left to solve it
I don't want too much too
I love you, I hate you all night long wouldn't mind you
and I'm feeling strong

So what are you afraid of?
It's not that you don't like it
There's nothing here to give you away
So what are you afraid of?
I know that you don't like us
It's part of my insecurity

I know that you don't like us much but I never really like
to stop being hot
So, I can understand the pit where you're coming from
You think that I told you like a big fat Don Ho
We can't really help it if you girlfriends think that you
guys are completely up to them and there's not no way
to know, no there's nothing we can do about it now

So what are you afraid of?
It's not that you don't like it
There's nothing here to give you away
So what are you afraid of?

I know that you don't like us
It's part of my insecurity

So what are you afraid of?
It's not that you don't like it
There's nothing here to give you away
So what are you afraid of?
I know that you don't like us
It's part of my insecurity

So what are you afraid of?

It's not that you don't like it
There's nothing here to give you away
So what are you afraid of?
I know that you don't like us
It's part of my insecurity

What are you afraid of?
