Say goodbye to you,
But it always dies,
Its taken aback to...
So watcha gonna do now,
But you've got until sundown
Don't look too good, look too bright,
Got it all but wanna fight
So how u gonna feel now
But you've got till sundown
Step in the car it's time to go
You want it back you fell off track
A thousand knives left in my back
Protecting me such an irony
And i told u once i'd never leave,
And all i do and and all i've seen
I drove.

(some shouting of some sort...go jamie)
So tell me y it all revolves around u,
(i got it i got it i got it..)
And i no in time wot i must do,
(i got it i got it i got it..)
Now i no it's time for us to fade,
Say what's awful, want it all today, now

Say what's wrong with u,
Got too much on your mind
And u just don't no where your going
So how u gonna feel now,
But u got until sundown
Don't look too good don't look too bright
Got it all and wanna fight
So how u gonna feel now,
But u got until sundown
Step in the car
Its time to go
You want it back, you still attack
A thousand knives left in my back
Protecting me, such an irony
And i told you once i'd never leave
And all i do, and all i see
I drove

(some shouting of some sort...go jamie go jamie)
So tell me y it all revolves around u,
(i got it i got it i got it..)
And i no in time wot i must do,
(i got it i got it i got it..)
Now i no it's time for us to fade,
Say what's awful, want it all today, now

I feel fine now, it's my time now
I feel fine now, it's my time now

(break down!)
