Funny, it seems like a scene from the movies  
Wasn't long ago that we told you about all the times  
you never made the grade  
You never listened  
Never interested, I'm playing with fire  
I know what, you didn't count on where you go  
I said I'd be there  
Seated by ur side, washed it all away  
All away  
And you tell me  
Never been more  
And you hide me  
All has been done  
Sorry if I just don't understand you  
Its just I'm not good with people shouting  
I never thought for a second that I  
Would be scared of higher planes  
On my own, it seemed like more  
And you tell me  
Never been more  
And you hide me  
All has been done  
And you tell me  
Never been more  
And you hide me  
All has been done  
Say, in my eyes  
Feels, more
