When our time is up
When our lives are done
Will we say, we've had our fun

Will we make a mark this time
Will we always say we tried

We're standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out

Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your heart out

All the love I've met
I have no regrets
If it all ends now, I'm set

Will we make a mark this time
Will we always say we tried

We're standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out

Standing on the rooftops
Everybody scream your heart out
This is all we got now

Everybody scream your heart out

Standing on the rooftops
Wait until the bombs drop
This is all we got now
Scream until your heart stops

Never gonna regret
Watching every sunset

We'll, listen to your heartbeat
All the love that we found

Standing on the rooftops
Wait until the bombs drop
This is all we got now
Scream until your heart stops

Never gonna regret
Watching every sunset
We'll, listen to your heartbeat
All the love that we found

Scream your heart out
Scream your heart out
Scream your heart out
Scream your

Standing on the rooftops
Everybody scream your heart out
Standing on the rooftops
Everybody scream your heart out

Standing on the rooftops
Everybody scream your heart out
This is all we got now
Everybody scream your
