Tonight.. I felt stronger  
Inside of your wings  
It takes a lot to get home  
But it's ok when the light is always on  
I just want you to understand, there's no need to keep  
waiting  
Another day and another hand, it could be so different  
A letter to me, your wasting time  
You know you could be, yeah you could shine  
But tonight you'll get it right, you will make a  
difference..  
Tonight Tonight Tonight i feel stronger  
Goodbye Goodbye Goodbye  
And i could see through, even so far away  
Its all you need to make it through another day  
Surprise scream your heart out  
In time you will have doubt  
Today it all seems too strong  
If only you tried, you would move on  
I just want you to understand, there's no need to keep  
waiting  
Another day and another hand, it could be so different  
A letter to me, your wasting time  
You know you could be, yeah you could shine  
But tonight you'll get it right, you will make a  
difference..  
Tonight Tonight Tonight i feel stronger  
Goodbye Goodbye Goodbye  
And i could see through, even so far away  
Its all you need to make it through another day  
Tonight Tonight Tonight i feel stronger  
Tonight Tonight Tonight i feel stronger  
Tonight Tonight Tonight i feel stronger  
Goodbye Goodbye Goodbye  
And i could see through, even so far away  
Its all you need to make it through another day  
Yeah yeah
