Way oh way oh,  
la la la la la la la la.  
Way oh way oh,  
la la la la la la.  
Bite that lip 'cause your tongue is a gun  
and your brain is the trigger.  
Fire at will,  
well I doubt that mouth could get any bigger.  
You live in hypocrisy,  
those skies are always sunny.  
You're never gonna be a threat to anybody.  
You're lying,  
you're lying,  
you're gonna be the one left crying.  
If you bring a gun,  
baby we'll bring an arsenal.  
If you think we're done,  
baby we'll bring it,  
we'll sing it.  
Open you're eyes and see,  
you are outnumbered, honey.  
You're never gonna be a threat to anybody.  
Way oh way oh,  
la la la la la la la la la.  
Way oh way oh,  
la la la la la la.  
You'll never get this dance tonight,  
so split home.  
You can run till you're done,  
but the shame will never leave you.  
Have your fun,  
was it worth all the time getting people to believe you?  
Open your eyes and see,  
it never was that funny.  
You're never gonna be a threat to anybody.  
You're lying,  
you're lying,  
you're gonna be the one left crying.  
If you bring a gun,  
baby we'll bring an arsenal.  
If you think we're done,  
baby we'll bring it,

we'll sing it.  
Open you're eyes and see,  
you are outnumbered, honey.  
You're never gonna be a threat to anybody.  
Way oh way oh,  
la la la la la la la la la.  
Way oh way oh,  
la la la la la la.  
You're lying,  
you're lying,  
you're gonna be the one left crying.  
You're lying,  
you're lying and you're never satisfied.  
You're lying,  
you're lying,  
you're gonna be the one left crying.  
You're lying,  
you're lying,  
there's no one on your side.  
If you bring a gun,  
baby we'll bring an arsenal.  
If you think we're done,  
baby we'll bring it,  
we'll sing it.  
If you bring a gun,  
baby we'll bring an arsenal.  
If you think we're done,  
baby we'll bring it,  
we'll sing it.  
Open your eyes and see,  
you are outnumbered, honey.  
You're never gonna be a threat to anybody.  
Way oh way oh,  
la la la la la la la la la.  
(A threat to anybody)  
Way oh way oh,  
la la la la la la.  
(A threat to anybody)  
Way oh way oh,  
la la la la la la la la la.  
(A threat to anybody)  
Way oh way oh,  
la la la la la la.
