On the foggy foggy banks me boys we pitch and toss  
about  
And we blow our frozen fingers as we hear the skipper  
shout  
Heave away upon the capstan give a hand to heave the  
trawl

Oh when I was but a lad at school I wouldn't stay at  
home  
Like lots of other foolish lads I thought I'd sooner roam  
Heave away upon the capstan give a hand to heave the  
trawl

So I went and I joined a trawler and it's then I quickly  
found  
That it wasn't all plain sailing when you reach the  
trawling ground  
Heave away upon the capstan give a hand to heave the  
trawl

You'll be hauling night and day me boys, you're nearer  
slaves than men  
And once you get all your fishes aboard it's time to  
haul again  
Heave away upon the capstan give a hand to heave the  
trawl

And when the waves are pouring around us and they're  
pounding against the deck  
Well you'll work your bit like all of the rest if you want to  
save your neck  
Heave away upon the capstan give a hand to heave the  
trawl

And the captain's name is Johnson and he works us 'til  
we fall  
And if he sees us a-shirkin' well it's God preserve us all  
Heave away upon the capstan give a hand to heave the  
trawl
