Come down to me  
I'll give you all you need to live  
I'll let go, give in, feel free  
I don't need to live

Come down to me  
stand for the things you believe in  
my heart is burning  
all doors wide open  
I'll let go, give in, feel free  
I don't need to live  
I just want to leave it all behind  
pay attention  
emotions no longer bear mankind

Misfortune grows by every moments fall  
the irony of my yearning passion  
emotions swirl round my coming event

that stops the heartpounding rhythm
